Element	Title	
	Exchange /Variation on certain events	If at any time the Issuer determines that a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event has occurred on or after the Issue Date, the Issuer may, as an alternative to an early redemption of the Notes, on any applicable Interest Payment Date, without the consent of the Noteholders, (i) exchange the Notes for new notes (the "Exchanged Notes"), or (ii) vary the terms of the Notes (the "Varied Notes"), so that in either case (A) in the case of an Accounting Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is recorded as "equity" in the audited annual or the semi-annual consolidated financial statements of the Issuer pursuant to IFRS or any other accounting standards that may replace IFRS for the purposes of preparing the annual audited consolidated financial statements of the Issuer, (B) in the case of a Withholding Tax Event, payments of principal and interest in respect of the Exchanged Notes or Varied Notes (as the case may be) are not subject to deduction or withholding by reason of French law or published regulations, (C) in the case of a Tax Deductibility Event, payments of interest payable by the Issuer in respect of the Exchanged Notes or Varied Notes (as the case may be) are deductible to the extent permitted by the Finance Act for 2013 (<i>loi de finances pour 2013</i>) n°2012-1509 dated 29 December 2012 or (D) in the case of a Rating Methodology Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is assigned "equity credit" by the relevant rating agency that is equal to or greater than that which was assigned to the Notes on the Issue Date, or if such equity credit was not assigned on the Issue Date, at the date when the equity credit was assigned for the first time. Any such exchange or variation would subject to certain conditions including the Issuer complying with the rules of any stock exchange and that the terms of the exchange or variation not be prejudicial to the interests of the Noteholders.
	Representative of Noteholders	The Noteholders will be grouped automatically for the defence of their respective common interests in a masse governed by the provisions of the French Code de commerce subject to certain exceptions and provisions (the "Masse"). The Masse will be a separate legal entity, and will be acting in part through one representative (the "Representative") and in part through a general assembly of the Noteholders. Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer	The EDF Group operates in an environment that is experiencing profound change, generating various risks, some of which are outside of its control and which are in addition to the risks inherent in carrying on its businesses. The risks that the EDF Group believes are material for its businesses are described below and more extensively in "Risk Factors" below. One or several of these risks could possibly have an adverse effect on the EDF Group's activities and/or its results. Moreover, other risks, of which it is currently unaware, or which it believes are not material at present, may have the same adverse effect. The key risks identified relate to: • European energy markets; • the EDF Group's activities; • the EDF Group's nuclear activities; • the EDF Group's structure and changes within the EDF Group; and • EDF's capital structure and the listing of its shares.
D.3	Key risks regarding the Notes	There are also risks associated with the Notes. These include: • risk relating to potential conflicts of interest between the Issuer, the Dealers, their respective affiliates and the Holders of the Notes • risks related to legality of purchase The acquisition of the Notes may be restricted by the laws of the jurisdiction of the Holder of the Notes, and may be subject to regulation by local authorities. • risk of modification, waivers or substitutions, of the conditions of the Notes by a General Meeting of Holders of

Element	Title	
		the Notes binding all Holders of the Notes including those who did not attend or who voted in a manner contrary to the majority risks related to taxation Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other charges or duties in accordance with the law and practices of the country where the Notes are transferred or where any other action is taken in relation to the Notes. risks related to the EU Savings Directive Directive 2003/48/EC relating to the taxation of savings income provides that during a transitional period, certain Member States will withhold an amount on interest payments in respect of the taxation of that income. risk of a change of law The Terms and Conditions of the Notes are based on French law in effect as of the date of the Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in French law or the official application or interpretation of French law after the date of this Prospectus. risk relating to the liquidity/trading market for the Notes The Notes may not be widely distributed and there may be no active trading market in respect of such Notes. risks relating to exchange rates risks and exchange controls The Issuer will pay principal and interest in the currency specified in the Specific Terms and Conditions. For investors whose financial activities are denominated in a currency other than the specified currency in which the related Notes are denominated, there is a risk of significant fluctuation in the rate of exchange between these two currencies. risks relating to credit ratings The credit ratings assigned to the Notes may not reflect the potential impact of all risks relating to the Notes, and other factors which may affect the value of the Notes. risks related to the market value of the Notes The market value of the Notes will be affected by the creditworthiness of the Issuer and a number of additional factors.

Element	Title	
		Another range of risks derives from the features of the Notes and include: - the Notes may not be a suitable investment for all investors. Each potential investor must make its own determination of the suitability of any such investment, with particular reference to its own investment objectives and experience, and any other factors which may be relevant to it in connection with such investment, either alone or with the help of a financial adviser; - the Issuer's obligations under the Notes are direct, unconditional, unsecured and deeply subordinated obligations (<i>titres subordonnés de dernier rang</i>) of the Issuer and rank and will rank <i>pari passu</i> among themselves and <i>pari passu</i> with all other present and future deeply subordinated obligations (<i>titres subordonnés de dernier rang</i>) of the Issuer. In the event of any judgment rendered by any competent court declaring the judicial liquidation (<i>liquidation judiciaire</i>) of the Issuer, or in the event of a transfer of the whole of the business of the Issuer (<i>cession totale de l'entreprise</i>) subsequent to the opening of a judicial recovery procedure (<i>redressement judiciaire</i>), or if the Issuer is liquidated for any other reason, the rights of Noteholders to payment under the Notes will be subordinated to the full payment of the unsubordinated creditors of the Issuer, of the ordinary subordinated creditors of the Issuer, of lenders in relation to <i>prêts participatifs</i> granted to or to be granted to the Issuer, if and to the extent that there is still cash available for those payments. Thus, the Noteholders face a higher performance risk than holders of unsubordinated and ordinary subordinated obligations of the Issuer; - the Notes are perpetual securities, with no specified maturity date. The issuer is under no obligation to redeem the Notes at any time. The Noteholders have no right to require redemption of the Notes, except if a judgment is issued for the insolvent judicial liquidation (<i>liquidation judiciaire</i>) of the Issuer or for the sale of the whole of the business (<i>cession totale de l'entreprise</i>) following an order of judicial reorganisation (<i>redressement judiciaire</i>) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason. Noteholders should therefore be aware that the principal amount of the Notes may not be repaid and that they may lose the value of their capital investment; - there are no events of default under the Notes allowing acceleration of the Notes if certain events occur. Accordingly, if the Issuer fails to meet any obligations under the Notes, including the payment of any interest, investors will not have the right to require the early redemption of principal. Upon a payment default, the sole remedy available to Noteholders for recovery of amounts owing in respect of any payment of principal or interest on the Notes will be the institution of proceedings to enforce such payment; - on any applicable Interest Payment Date on or after the applicable First Call Date, and upon the occurrence of a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event, a Rating Methodology Event or a

Element	Title	
		Substantial Repurchase Event, the Issuer may redeem the Notes; such early redemption may have an impact on the expected maturity of the Notes, the market value of the Notes, and the re-investment conditions of the Noteholders; • on any applicable Interest Payment Date, the Issuer may elect to defer payment of all (but not some only) of the interest accrued to that date, and the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose. Any deferral of interest payments will be likely to have an adverse effect on the market price of the Notes. In addition, as a result of these provisions of the Notes, the market price of the Notes may be more volatile than the market prices of other debt securities on which interest accrues that are not subject to these provisions and may be more sensitive generally to adverse changes in the Issuer's financial condition; • interest on the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes; • there is a risk that, after the issue of the Notes, a Withholding Tax Event, a Tax Deductibility, an Accounting Event or a Rating Methodology Event may occur which would entitle the Issuer, without the consent or approval of the Noteholders, to exchange or vary the Notes, subject to certain conditions (including the Issuer complying with the rules of any stock exchange and that the terms of the exchange or variation not be prejudicial to the interests of the Noteholders); and • there is no restriction in the terms and conditions of the Notes on the amount of debt which the Issuer may issue or guarantee. The Issuer and its subsidiaries and affiliates may incur additional indebtedness or grant guarantees in respect of indebtedness of third parties, including indebtedness or guarantees that rank <i>pari passu</i> or senior to the Notes. The issue of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by Noteholders on a winding-up or liquidation of the Issuer for any reason and/or may increase the likelihood of a deferral of interest payments under the relevant Notes.

Un tel échange ou une telle modification est soumise à certaines conditions, y compris le respect par l'Emetteur des règles de toute bourse et que les termes de l'échange ou de la modification ne soient pas préjudiciables aux intérêts des Porteurs de Titres.

Section D – Risques

Elément	Titre	
D.2	Risques clés propres à l'Emetteur	Le Groupe EDF exerce son activité dans un environnement en forte évolution induisant de nombreux risques, dont certains échappent à son contrôle, et qui s'ajoutent aux risques inhérents à l'exercice de ses métiers. Le Groupe EDF décrit ci-dessous les risques significatifs auxquels il estime être exposé, tel que plus amplement détaillé dans "Facteurs de Risques" ci-dessous. Ces risques ou l'un de ces risques pourraient avoir une incidence négative sur son activité et/ou ses résultats. En outre, d'autres risques, dont il n'a pas actuellement connaissance ou qu'il considère comme non significatifs à ce jour pourraient avoir le même effet négatif. Les risques présentés ci-dessous concernent : • les marchés européens de l'énergie ; • les activités du Groupe EDF ; • les activités nucléaires du Groupe EDF ; • la structure et à la transformation du Groupe EDF ; et • la structure du capital d'EDF et à la cotation de ses actions.

Elément	Titre	
D.3	Risques propres Titres	clés aux Il existe également des risques relatifs aux Titres. Ils incluent : • les risques liés aux conflits d'intérêts potentiels entre l'Emetteur, les banques, leurs affiliés respectifs et les porteurs des Titres • les risques liés à l'acquisition légale des Titres L'acquisition des Titres peut être sujette à des lois et règlements ou à un contrôle ou une régulation par certaines autorités. • le risque de modification des modalités des Titres par une décision de l'assemblée générale des porteurs des Titres, les porteurs non présents ou en désaccord pouvant se retrouver liés par le vote de la majorité • les risques liés à la fiscalité Les acquéreurs et vendeurs de Titres doivent savoir qu'il est possible qu'ils aient à payer des droits de timbre ou toute autre taxe similaire en application des lois et pratiques de l'état dans lequel les Titres sont transférés et/ou dans lequel un quelconque actif est délivré. • les risques liés à la directive européenne sur la fiscalité de l'épargne La directive 2003/48/CE relative à l'imposition des revenus tirés de l'épargne prévoit que, pendant une période de transition, certains Etats membres doivent appliquer une retenue à la source sur tout paiement d'intérêt au sens de ladite directive. • les risques relatifs à un changement législatif Les Titres sont régis par la loi française à la date du Prospectus. Aucune assurance ne peut être donnée quant aux conséquences d'une décision judiciaire ou d'une modification de la législation ou de son interprétation postérieure à la date du Prospectus. • les risques liés au marché secondaire des Titres Les Titres émis peuvent ne pas faire l'objet d'une distribution importante et il ne peut être garanti qu'un marché actif des Titres se développera. • les risques relatifs aux taux de change L'Emetteur paiera le principal et les intérêts des Titres dans la devise prévue par les modalités spécifiques des Titres, pouvant présenter notamment des risques relatifs à la conversion des devises si les activités financières d'un investisseur sont effectuées principalement dans une unité monétaire différente de la devise prévues par les modalités spécifiques des Titres. • les risques liés à la notation des Titres La notation des Titres ne reflète pas nécessairement tous les risques liés aux Titres et autres facteurs qui peuvent affecter la valeur des Titres. • les risques à la valeur des Titres sur le marché

Elément	Titre	
		La valeur des Titres sur le marché peut être affectée par la solvabilité de l'Emetteur et un certain nombre de facteurs additionnels. Un autre ensemble de risques découle des caractéristiques des Titres, y compris les risques suivants : • les Titres peuvent ne pas être un investissement adapté à tous les investisseurs. Chaque investisseur doit faire sa propre analyse du caractère adapté d'un tel investissement, eu égard notamment à ses propres objectifs d'investissement et sa propre expérience, et à tout autre facteur qui pourrait être pertinent dans le cadre d'un tel investissement, soit lui-même soit avec l'aide d'un conseiller financier ; • les engagements de l'Emetteur au titre des Titres sont des engagements directs, inconditionnels, non assortis de sûretés et super subordonnés (des titres subordonnés de dernier rang) de l'Emetteur et viennent et viendront au même rang entre eux et au même rang que tous les autres engagements super subordonnés (titres subordonnés de dernier rang) de l'Emetteur, présents ou futurs. En cas de jugement d'un tribunal compétent décidant la liquidation judiciaire de l'Emetteur, ou en cas de cession totale de l'entreprise à la suite d'une décision de redressement judiciaire, ou en cas de liquidation de l'Emetteur pour toute autre raison, les droits des Porteurs des Titres à être payés au titre des Titres sera subordonné au paiement en totalité des créanciers non-subordonnés de l'Emetteur, des créanciers ordinairement subordonnés de l'Emetteur, des prêteurs au titre de prêts participatifs octroyés ou devant être octroyés à l'Emetteur, seulement dans la mesure où il reste des sommes disponibles pour de tels paiements. Ainsi, les Porteurs de Titres sont confrontés à un risque supérieur de non-exécution par rapport aux détenteurs d'engagements non-subordonnés et ordinairement subordonnés de l'Emetteur ; • les Titres sont des obligations perpétuelles, sans date d'échéance spécifiée. L'Emetteur n'est tenu de rembourser les Titres à aucun moment. Les Porteurs n'ont pas le droit d'exiger le remboursement des Titres, sauf si un jugement est prononcé pour la liquidation judiciaire de l'Emetteur ou pour la cession totale de l'entreprise à la suite d'une décision de redressement judiciaire concernant l'Emetteur ou si l'émetteur est liquidé pour toute autre raison. Les investisseurs doivent donc comprendre que le principal des Titres peut ne pas être remboursé et qu'ils pourraient perdre la valeur de leur capital investi ; • il n'y a pas de cas de défaut au titre des Titres permettant l'accélération des Titres en cas de survenance de certains événements. En conséquence, si l'Emetteur ne respecte pas une des ses obligations au titre des Titres, en ce compris le paiement d'intérêts, les investisseurs n'auront pas le droit d'exiger le remboursement anticipé du principal. En cas de défaut de paiement, le seul recours des Porteurs pour recouvrer les sommes qui lui sont dues au titre de principal ou d'intérêts sur les Titres sera d'entamer une procédure judiciaire pour obtenir le paiement ; • lors de toute Date de Paiement d'Intérêts applicable à compter de la Première Date de Remboursement Anticipé applicable, et

Elément	Titre	
		en cas de survenance d'un Evénement de Retenue à la Source Fiscale, un Evénement de Déductibilité Fiscale, un Evénement Comptable, un Evénement de Méthodologie de Notation ou un Evénement de Rachat Significatif, l'Emetteur pourra rembourser les Titres; ce remboursement anticipé pourra avoir un impact sur la maturité prévue des Titres, la valeur de marché des Titres et les conditions de réinvestissement des Porteurs de Titres ; • lors de toute Date de Paiement d'Intérêts applicable, l'Emetteur pourra choisir de différer le paiement de l'ensemble (mais pas en partie seulement) des intérêts courus jusqu'à cette date, et l'Emetteur ne sera pas tenu de faire ces paiements et tout non-paiement ne constituera pas un défaut de l'Emetteur pour une quelconque raison. Tout différé de paiements d'intérêts aura en toute probabilité un effet négatif sur le prix de marché des Titres. En outre, à cause de ces caractéristiques des Titres, le prix de marché des Titres pourrait être plus volatil que celui d'autres titres de créance portant intérêt et qui n'ont pas ces caractéristiques, et pourraient de manière générale être plus sensibles aux changements négatifs dans la condition financière de l'Emetteur ; • les intérêts des Titres impliquent le risque que les changements ultérieurs des taux d'intérêt du marché affectent de manière négative la valeur des Titres ; • il y a un risque qu'après l'émission des Titres, un Evénement de Retenue à la Source Fiscale, un Evénement de Déductibilité Fiscale, un Evénement Comptable ou un Evénement de Méthodologie de Notation intervienne qui autoriserait l'Emetteur, sans l'accord des Porteurs de Titres à échanger ou modifier les Titres, sous certaines conditions (y compris le respect par l'Emetteur des règles de toute bourse et que les modalités de l'échange ou de la modification ne soient pas préjudiciables aux intérêts des Porteurs de Titres) ; et • il n'y a aucune restriction dans les modalités des Titres concernant le montant de dette que l'Emetteur peut émettre ou garantir. L'Emetteur et ses filiales et sociétés affiliées pourraient encourir de l'endettement additionnel ou octroyer des garanties relatives à de l'endettement de tiers, y compris de l'endettement ou des garanties ayant le même rang ou un rang supérieur aux Titres. L'émission de tels titres ou de toute autre dette pourrait réduire les éventuels montants recouvrables par un Porteur de Titres lors d'une liquidation de l'Emetteur pour toute raison et/ou pourrait accroître la probabilité d'un différé d'intérêts relatif aux Titres concernés.

Des commissions sont payées aux Chefs de File en relation avec l’émission des Titres. L’un ou l’autre de ces Chefs de File et leurs affiliés peuvent également s’être livrés, ou pourront se livrer à l’avenir, à des opérations de banque d’investissement et/ou de banque commerciale avec l’Emetteur et ses affiliés, ou fournir d’autres services à l’Emetteur et à ses affiliés, dans le cadre de la marche ordinaire des affaires.

RISK FACTORS

The following paragraphs describe some risk factors that are material to the Notes to be offered and/or admitted to trading in order to assess the market risk associated with these Notes. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but they do not describe all the risks of an investment in the Notes and the Issuer does not represent that the statements below regarding the risks of holding the Notes are exhaustive. Prospective investors should consider all information provided in this Prospectus consult their own financial and legal advisers about risks associated with investment in the Notes and the suitability of investing in the Notes in light of their particular circumstances.

Terms defined herein shall have the same meaning as in the Conditions as defined on page 33 of this Prospectus.

The risk factors under which the Notes described herein are issued comprise:

- (i) the Specific Risk Factors below; and
- (ii) the general risk factors on pages 26 to 64 of the Base Prospectus which is incorporated by reference (the "**General Risk Factors**").

References in the General Risk Factors to the Final Terms shall be deemed to refer to this Prospectus.

The Specific Risk Factors set out below are in addition to the General Risk Factors relating to the Notes set out in the Base Prospectus, which are also relevant to an assessment of the risks relating to the Notes, such as those appearing under the following sub-headings in the Base Prospectus:

- Independent review and advice
- Provision of information
- Potential conflicts of interest
- Legality of purchase
- Modification, waivers and substitution
- Regulatory restrictions
- Credit ratings
- Taxation
- EU Savings Directive
- French insolvency law
- No active secondary/trading market for the Notes
- Exchange rate risks and exchange controls
- Market value of the Notes
- Change of law

Specific Risk Factors

The Notes may not be a suitable investment for all investors

Each potential investor must make its own determination of the suitability of any such investment, with particular reference to its own investment objectives and experience, and any other factors which may be relevant to it in connection with such investment, either alone or with the help of a financial adviser. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;

- (iv) understand thoroughly the Conditions of the Notes and be familiar with the behaviour of financial markets and of any financial variable which might have an impact on the return on the Notes; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and

prospective purchasers should also consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes.

The Notes are lowest ranking subordinated obligations of the Issuer

The Issuer's obligations under the Notes are direct, unconditional, unsecured and deeply subordinated obligations (*titres subordonnés de dernier rang*) of the Issuer and rank and will rank pari passu among themselves and pari passu with all other present and future deeply subordinated obligations (*titres subordonnés de dernier rang*) of the Issuer. In the event of any judgment rendered by any competent court declaring the judicial liquidation (*liquidation judiciaire*) of the Issuer, or in the event of a transfer of the whole of the business of the Issuer (*cession totale de l'entreprise*) subsequent to the opening of a judicial recovery procedure (*redressement judiciaire*), or if the Issuer is liquidated for any other reason, the rights of Noteholders to payment under the Notes will be subordinated to the full payment of the unsubordinated creditors of the Issuer (including holders of Unsubordinated Obligations), of the ordinary subordinated creditors of the Issuer (including holders of Ordinary Subordinated Obligations), of lenders in relation to prêts participatifs granted to or to be granted to the Issuer, if and to the extent that there is still cash available for those payments. Thus, the Noteholders face a higher performance risk than holders of unsubordinated and ordinary subordinated obligations of the Issuer.

In the event of liquidation of the Issuer, the Notes shall rank in priority only to any payments to holders of Equity Securities. In the event of incomplete payment of creditors ranking senior to the Noteholders, the obligations of the Issuer and the relative interest will be terminated.

The claims of the Noteholders under the Notes are intended to be senior only to claims of any holders of Equity Securities. There are currently no other instruments of the Issuer that rank junior to the Notes other than the ordinary shares of the Issuer.

Perpetual Securities

The Notes are perpetual securities, with no specified maturity date. The Issuer is under no obligation to redeem the Notes at any time.

The Noteholders have no right to require redemption of the Notes, except if a judgment is issued for the insolvent judicial liquidation (*liquidation judiciaire*) of the Issuer or if the Issuer is liquidated for any other reason. See "*Terms and Conditions of the Notes*" below.

Noteholders should therefore be aware that the principal amount of the Notes may not be repaid and that they may lose the value of their capital investment.

There are no events of default under the Notes

The Conditions of the Notes do not provide for events of default allowing acceleration of the Notes if certain events occur. Accordingly, if the Issuer fails to meet any obligations under the Notes, including the payment of any interest, investors will not have the right to require the early redemption of principal. Upon a payment default, the sole remedy available to Noteholders for recovery of amounts owing in respect of any payment of principal or interest on the Notes will be the institution of proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

Deferral of interest payments

On any applicable Interest Payment Date (as defined in the Euro 7 Year Non-Call Specific Terms and Conditions of the Notes, the Euro 12 Year Specific Terms and Conditions of the Notes and the GBP Specific Terms and Conditions of the Notes, respectively), the Issuer may elect to defer payment of all (but not some only) of the interest accrued to that date, and the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose.

Any interest not paid on an applicable Interest Payment Date and deferred shall, so long as the same remains outstanding, constitute Arrears of Interest and shall be payable as outlined in Clause 2.2 of the schedule to the Euro 7 Year Non-Call Specific Terms and Conditions of the Notes, the Euro 12 Year Specific Terms and Conditions of the Notes and the GBP Specific Terms and Conditions of the Notes.

Any deferral of interest payments will be likely to have an adverse effect on the market price of the Notes. In addition, as a result of the above provisions of the Notes, the market price of the Notes may be more volatile than the market prices of other debt securities on which interest accrues that are not subject to the above provisions and may be more sensitive generally to adverse changes in the Issuer's financial condition.

Early redemption risk

The Issuer may redeem the Notes in whole, but not in part, on the applicable Interest Payment Date falling on the First Euro 7 Year Call Date or on any Euro 7 Year Interest Payment Date thereafter, the First Euro 12 Year Call Date or on any Euro 12 Year Interest Payment Date thereafter or the First GBP Call Date or on any GBP Interest Payment Date thereafter, as applicable.

The Issuer may also, at its option, redeem the Notes in whole or in part, upon the occurrence of a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event a Rating Methodology Event and a Substantial Repurchase Event, as further described in Clause 3 of the schedule to the Euro 7 Year Non-Call Specific Terms and Conditions of the Notes, Euro 12 Year Specific Terms and Conditions of the Notes and the GBP Specific Terms and Conditions of the Notes, respectively.

Such redemption options will be exercised at, in relation to a Withholding Tax Event, the principal amount of the Notes, and in relation to a Tax Deductibility Event, an Accounting Event, a Rating Methodology Event and a Substantial Repurchase Event, 101 per cent. of the principal amount of the Notes together with interest accrued to the date of redemption (including, for the avoidance of doubt, any Arrears of Interest and Additional Interest Amounts (if any) thereon at such date).

The redemption at the option of the Issuer may affect the market value of the Notes. During any period when the Issuer may elect to redeem the Notes, the market value of the Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to the First Euro 7 Year Call Date, First Euro 12 Year Call Date or the First GBP Call Date, as applicable.

The Issuer may also be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. There can be no assurance that, at the relevant time, Noteholders will be able to reinvest the amounts received upon redemption at a rate that will provide the same return as their investment in the Notes. Potential investors should consider reinvestment risk in light of other investments available at that time.

Interest rate risk

Interest on the Notes before the First Euro 7 Year Reset Date, the First Euro 12 Year Reset Date or the First GBP Reset Date, as applicable, involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes.

Following the First Euro 7 Year Reset Date, interest on the Notes for each Relevant Seven Year Period shall be calculated on the basis of the mid swap rates for Euro swap transactions with a maturity of seven years plus the applicable margin. These mid swap rates are not pre-defined for the lifespan of the Notes. Higher mid swap rates for Euro swap transactions mean a higher interest and lower mid swap rates for Euro swap transactions with a maturity of seven years mean a lower interest.

Following the First Euro 12 Year Reset Date, interest on the Notes for each Relevant Twelve Year Period shall be calculated on the basis of the mid swap rates for Euro swap transactions with a maturity of twelve years plus the applicable margin. These mid swap rates are not pre-defined for the lifespan of the Notes. Higher mid swap rates for Euro swap transactions mean a higher interest and lower mid swap rates for Euro swap transactions with a maturity of twelve years mean a lower interest.

Following the First GBP Reset Date, interest on the Notes for each Relevant Thirteen Year Period shall be calculated on the basis of the thirteen year mid swap rate derived by the linear interpolation of the twelve year and fifteen year mid swap rates for GBP swap transactions plus the applicable margin. These mid swap rates are not pre-defined for the lifespan of the Notes. Higher mid swap rates for such GBP swap transactions mean a higher interest and lower mid swap rates for GBP swap transactions mean a lower interest.

Optional redemption, exchange or variation of the Notes for tax, accounting or rating agency reasons

There is a risk that, after the issue of the Notes, a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event may occur which would entitle the Issuer, without the consent or approval of the Noteholders, to exchange or vary the Notes, subject to not being prejudicial to the interest of the Noteholders, so that after such exchange or variation, (i) in the case of an Accounting Event, they would be recorded as "equity" in the audited annual or the semi-annual consolidated financial statements of the Issuer pursuant to IFRS or any other accounting standards that may replace IFRS for the purposes of preparing the annual audited consolidated financial statements of the Issuer, (ii) in the case of a Withholding Tax Event, payments of principal and interest in respect of such Notes (as the case may be) are not subject to deduction or withholding by reason of French law or published regulations, (iii) in the case of a Tax Deductibility Event, payments of interest payable by the Issuer in respect of such Notes (as the case may be) are deductible to the extent permitted by the Finance Act for 2013 (*loi de finances pour 2013*) n°2012-1509 dated 29 December 2012 or (iv) in the case of a Rating Methodology Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is assigned "equity credit" by the relevant rating agency that is equal to or greater than that which was assigned to the Notes on the Issue Date, or if such equity credit was not assigned on the Issue Date, at the date when the equity credit was assigned for the first time.

Alternatively, the Issuer reserves the right, under the same circumstances, to redeem the Notes early as further described in "Early Redemption Risk" above and in "Terms and Conditions of the Notes - Redemption".

In such a case, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to reinvest at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

No limitation on issuing or guaranteeing debt ranking senior or pari passu with the Notes

There is no restriction in the terms and conditions of the Notes on the amount of debt which the Issuer may issue or guarantee. The Issuer and its subsidiaries and affiliates may incur additional indebtedness or grant guarantees in respect of indebtedness of third parties, including indebtedness or guarantees that rank *pari passu* or senior to the Notes. The issue of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by Noteholders on a winding-up of the Issuer and/or may increase the likelihood of a deferral of interest payments under the relevant Notes.

If the Issuer's financial condition were to deteriorate, the Noteholders could suffer direct and materially adverse consequences, including loss of interest and, if the Issuer were liquidated (whether voluntarily or not), the Noteholders could suffer loss of their entire investment.

SCHEDULE TO THE EURO 7 YEAR NON-CALL SPECIFIC TERMS AND CONDITIONS

1. Status of the Euro 7 Year Non-Call Notes and the Negative Pledge

This Clause 1 supersedes and replaces Condition 3 (*Status of the Notes*) and Condition 4 (*Negative Pledge*).

1.1 Deeply Subordinated Notes

The Euro 7 Year Non-Call Notes are deeply subordinated notes ("**Deeply Subordinated Notes**") issued pursuant to the provisions of Article L.228-97 of the French *Code de commerce*. The principal and interest on the Euro 7 Year Non-Call Notes constitute direct, unconditional, unsecured and deeply subordinated obligations (*titres subordonnés de dernier rang*) of the Issuer and rank and will rank:

- subordinated to present and future *prêts participatifs*, Ordinary Subordinated Obligations and Unsubordinated Obligations of the Issuer;
- *pari passu* among themselves and *pari passu* with all other present and future deeply subordinated obligations of the Issuer; and
- senior only to the Equity Securities of the Issuer.

1.2 Payment on the Euro 7 Year Non-Call Notes in the event of the liquidation of the Issuer

If any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer (*liquidation judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason, the payments of the creditors of the Issuer shall be made in the order of priority set out below (in each case subject to the payment in full of priority creditors) and no payment of principal and interest (including any outstanding Arrears of Interest and/or Additional Interest Amount) on the Euro 7 Year Non-Call Notes may be made until all holders of other indebtedness (other than Parity Securities) have been paid in full.

In the event of liquidation of the Issuer, the Euro 7 Year Non-Call Notes shall rank in priority only to any payments to holders of Equity Securities. In the event of incomplete payment of unsubordinated creditors, the obligations of the Issuer in connection with the Euro 7 Year Non-Call Notes shall be terminated.

1.3 Negative Pledge

There will be no negative pledge in respect of the Euro 7 Year Non-Call Notes.

2. Interest

2.1 Rate of Interest and Interest Amount

- (i) From and including the Interest Commencement Date to but excluding the First Euro 7 Year Reset Date, the Rate of Interest for each Note shall be 4.250 per cent. per annum, payable annually in arrear on each Euro 7 Year Interest Payment Date up to, and including, the First Euro 7 Year Reset Date. The Fixed Coupon Amount payable in respect of each Euro 7 Year Non-Call Note on each Euro 7 Year Interest Payment Date up to and including the First Euro 7 Year Reset Date shall be EUR 4,250 per EUR 100,000 Specified Denomination.
- (ii) From and including the First Euro 7 Year Reset Date, the Rate of Interest for each Euro 7 Year Non-Call Note for each Relevant Euro Seven Year Period shall be a reset rate equal to the Relevant Euro Seven Year Reset Rate plus the Relevant Euro 7 Year Margin per annum payable annually in arrear on each Euro 7 Year Interest Payment Date from and including 29 January 2021.

For the purposes of sub-paragraph (ii) above, the Interest Amount payable in respect of each Euro 7 Year Non-Call Note on each Euro 7 Year Interest Payment Date following the First Euro 7 Year Reset Date shall be calculated by multiplying the product of the applicable Euro 7 Year Reset Rate and the Specified Denomination of such Euro 7 Year Non-Call Note by the Day Count Fraction and rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

2.2 Interest Deferral

(i) Optional Interest Payment

Interest which accrues during an Interest Period ending on but excluding a Euro 7 Year Interest Payment Date will be due and payable on that Euro 7 Year Interest Payment Date unless the Issuer, by notice to (x) the Noteholders in accordance with Condition 15 (*Notices*) and (y) the Fiscal Agent pursuant to sub-paragraph (iii) below, elects to defer payment of all (but not some only) of the interest accrued to that date, and the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose.

Any interest not paid on a Euro 7 Year Interest Payment Date and deferred in accordance with this paragraph shall so long as the same remains outstanding constitute "**Arrears of Interest**" and shall be payable as outlined below.

(ii) Compulsory Payment of Arrears of Interest

Arrears of Interest (together with the corresponding Additional Interest Amount) may, at the option of the Issuer, be paid in whole or in part at any time but all Arrears of Interest (together with the corresponding Additional Interest Amount) in respect of all Euro 7 Year Non-Call Notes for the time being outstanding shall become due and payable in full on whichever is the earliest of:

- (A) the tenth Business Day following the occurrence of a Compulsory Arrears of Interest Payment Event (as defined in 4 below); or
- (B) the date of any redemption of the Euro 7 Year Non-Call Notes in accordance with the provisions relating to redemption of the Euro 7 Year Non-Call Notes; or
- (C) the date upon which a judgment is made by a competent court for the voluntary or judicial liquidation of the Issuer (*liquidation amiable ou judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason.

Each amount of Arrears of Interest shall bear interest, in accordance with Article 1154 of the French Civil Code, as if they constituted the Nominal Amount of the Euro 7 Year Non-Call Notes at a rate which corresponds to the Rate of Interest from time to time applicable to the Euro 7 Year Non-Call Notes and the amount of such interest (the "**Additional Interest Amount**") with respect to Arrears of Interest shall be due and payable pursuant to this provision and shall be calculated by the Calculation Agent applying the Rate of Interest to the amount of the Arrears of Interest and otherwise *mutatis mutandis* as provided in the foregoing provisions hereof. The Additional Interest Amount accrued up to any Euro 7 Year Interest Payment Date shall be added, to the extent permitted by applicable law and for the purpose only of calculating the Additional Interest Amount accruing thereafter, to the amount of Arrears of Interest remaining unpaid on such Euro 7 Year Interest Payment Date as if such amount constituted Arrears of Interest.

(iii) Notice of Deferral and Payment of Arrears of Interest

The Issuer shall give not less than five (5) nor more than thirty (30) Business Days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) and to the Fiscal Agent:

- (A) of any Euro 7 Year Interest Payment Date on which the Issuer elects to defer interest as provided in sub-paragraph (i) above; and

- (B) of any date upon which amounts in respect of Arrears of Interest and/or Additional Interest Amounts shall become due and payable.

So long as the Euro 7 Year Non-Call Notes are listed on the regulated market of Euronext Paris and the rules of such stock exchange so require, notice of any such deferral shall also be given as soon as reasonably practicable to such stock exchange.

(iv) Partial Payment of Arrears of Interest and Additional Interest Amounts

If amounts in respect of Arrears of Interest and Additional Interest Amounts are paid in part:

- (A) all unpaid amounts of Arrears of Interest shall be payable before any Additional Interest Amounts;
- (B) Arrears of Interest accrued for any period shall not be payable until full payment has been made of all Arrears of Interest that have accrued during any earlier period and the order of payment of Additional Interest Amounts shall follow that of the Arrears of Interest to which they relate; and
- (C) the amount of Arrears of Interest or Additional Interest Amounts payable in respect of any Euro 7 Year Non-Call Note in respect of any period, shall be *pro rata* to the total amount of all unpaid Arrears of Interest or, as the case may be, Additional Interest Amounts accrued in respect of that period to the date of payment.

3. Redemption

3.1 No fixed Maturity Date

The Euro 7 Year Non-Call Notes have no fixed Maturity Date on which they will be redeemed.

3.2 Optional Redemption from the First Euro 7 Year Call Date

The Issuer may, at its option, subject to having given not more than 45 nor less than 30 calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable), redeem the Euro 7 Year Non-Call Notes in whole, but not in part, at their Specified Denomination per Euro 7 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption on the First Euro 7 Year Call Date or on any Euro 7 Year Interest Payment Date falling thereafter.

3.3 Redemption for Taxation Reasons

- (i) If, by reason of any change in French law or published regulations becoming effective after the Issue Date, the Issuer would on the occasion of the next payment of principal or interest due in respect of the Euro 7 Year Non-Call Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 8(b) (*Additional Amounts*) (a "**Tax Gross-Up Event**"), the Issuer may, at its option, at any time, subject to having given not more than 60 nor less than 30 calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the Euro 7 Year Non-Call Notes, at their Specified Denomination per Euro 7 Year Non-Call Note together with any interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and interest without withholding for French taxes.
- (ii) If the Issuer would on the next payment of principal or interest in respect of the Euro 7 Year Non-Call Notes be prevented by French law from making payment to the Noteholders of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 8(b) (*Additional Amounts*) (such event, together with a Tax Gross-Up Event, being a "**Withholding Tax Event**"), then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the Euro 7 Year Non-Call Notes then outstanding, at their Specified Denomination per Euro 7 Year Non-Call Note together with any interest accrued (including Arrears of Interest and

any Additional Interest Amount) to the date set for redemption on the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the Euro 7 Year Non-Call Notes, or, if applicable, Receipts or Coupons or, if that date is passed, as soon as practicable thereafter.

- (iii) If an opinion of a recognised law firm of international standing has been delivered to the Issuer and the Fiscal Agent, stating that by reason of a change in French law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the tax regime of any payments under the Euro 7 Year Non-Call Notes is modified and such modification results in payments of interest payable by the Issuer in respect of the Euro 7 Year Non-Call Notes being no longer deductible in whole or in part (a "**Tax Deductibility Event**"), so long as this cannot be avoided by the Issuer taking reasonable measures available to it at the time, the Issuer may redeem the Euro 7 Year Non-Call Notes in whole, but not in part, at 101 per cent. of their Specified Denomination per Euro 7 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption, on the latest practicable date on which the Issuer could make such payment with interest payable being tax deductible in France or, if such date is past, as soon as practicable thereafter. The Issuer shall give the Fiscal Agent notice of any such redemption not less than 30 nor more than 45 calendar days before the date fixed for redemption and the Fiscal Agent shall promptly thereafter publish a notice of redemption in accordance with Condition 15 (*Notices*). A Tax Deductibility Event shall be deemed not to have occurred if any such change in law or regulation results from the Finance Act for 2013 (*loi de finances pour 2013*) n°2012-1509 dated 29 December 2012 (the "**Finance Act**").

3.4 Optional Redemption due to Accounting Event

If an Accounting Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 7 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 7 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) a copy of the letter or report referred to in the definition of "Accounting Event".

3.5 Optional Redemption due to Rating Methodology Event

If a Rating Methodology Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 7 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 7 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) evidence of the written confirmation referred to in the definition of "Rating Methodology Event".

3.6 Optional Redemption on Substantial Repurchase Event

If a Substantial Repurchase Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 7 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 7 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption.

3.7 Exchange and Variation

If at any time the Issuer determines that a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event has occurred on or after the Issue Date, the Issuer may, as an alternative to paragraphs 3.3 to 3.5 above, on any Euro 7 Year Interest Payment Date, without the consent of the Noteholders, (i) exchange the Euro 7 Year Non-Call Notes for new notes replacing the Euro 7 Year Non-Call Notes (the "**Exchanged Notes**"), or (ii) vary the terms of the Euro 7 Year Non-Call Notes (the "**Varied Notes**"), so that in either case (A) in the case of an Accounting Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is recorded as "equity" in the audited annual or the semi-annual consolidated financial statements of the Issuer pursuant to IFRS or any other accounting standards that may replace IFRS for the purposes of preparing the annual audited consolidated financial statements of the Issuer, (B) in the case of a Withholding Tax Event, payments of principal and interest in respect of the Exchanged Notes or Varied Notes (as the case may be) are not subject to deduction or withholding by reason of French law or published regulations, (C) in the case of a Tax Deductibility Event, payments of interest payable by the Issuer in respect of the Exchanged Notes or Varied Notes (as the case may be) are deductible to the extent permitted by the Finance Act for 2013 referred to in paragraph 3.3(iii) above or (D) in the case of a Rating Methodology Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is assigned "equity credit" by the relevant Rating Agency that is at least the same as that which was assigned to the Euro 7 Year Non-Call Notes on the Issue Date, or if such equity credit was not assigned on the Issue Date, at the date when the equity credit was assigned for the first time. Any such exchange or variation is subject to the following conditions:

- (i) the Issuer giving not less than 30 nor more than 45 calendar days' notice to the Noteholders in accordance with Condition 15 (*Notices*);
- (ii) the Issuer complying with the rules of any stock exchange (or any other relevant authority) on which the Euro 7 Year Non-Call Notes are for the time being listed or admitted to trading, and (for so long as the rules of such exchange require) the publication of any appropriate supplement, listing particulars or offering circular in connection therewith, and the Exchanged or Varied Notes continue to be listed or admitted on the same stock exchange as the Euro 7 Year Non-Call Notes if they were listed immediately prior to the relevant exchange or variation;
- (iii) the Issuer paying any Arrears of Interest and any Additional Interest Amount in full prior to such exchange or variation;
- (iv) the Exchanged or Varied Notes shall maintain the same ranking in liquidation, the same interest rate and interest payment dates, the same First Euro 7 Year Call Date, the same First Euro 7 Year Reset Date and early redemption rights (provided that the relevant exchange or variation may not itself trigger any early redemption right), the same rights to accrued or Arrears of Interest, any Additional Interest Amount and any other amounts payable under the Notes which, in each case, has accrued to Noteholders and has not been paid, the same rights to principal and interest, and, if publicly rated by Moody's and/or Standard & Poor's immediately prior to such exchange or variation, at least the same credit rating immediately after such exchange or variation by both Moody's and Standard & Poor's if the Euro 7 Year Non-Call Notes are publicly rated by both such rating agencies, or by the relevant such rating agency if the Euro 7 Year Non-Call Notes are only rated by one such rating agency, as compared with the relevant rating(s) immediately prior to such exchange or variation (as determined by the Issuer using reasonable measures available to it including discussions with Moody's and/or Standard & Poor's to the extent practicable) and shall not contain terms providing for the mandatory deferral of interest and do not contain terms providing for loss absorption through principal write-down or conversion to shares;
- (v) the terms of the exchange or variation not being prejudicial to the interests of the Noteholders, including compliance with (iv) above, as certified to the benefit of the Noteholders by a director of the Issuer, having consulted with an independent investment bank of international standing (for the avoidance of doubt the Fiscal Agent shall accept the certificates of the Issuer as sufficient evidence of the occurrence of a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event and that such exchange or variation to the terms of the Euro 7 Year Non-Call Notes are not prejudicial to the interest of the Noteholders); and

- (vi) the issue of legal opinions addressed to the Fiscal Agent for the benefit of the Noteholders from one or more international law firms of good reputation confirming (x) that the Issuer has capacity to assume all rights and obligations under the Exchanged Notes or Varied Notes and has obtained all necessary corporate or governmental authorisation to assume all such rights and obligations and (y) the legality, validity and enforceability of the Exchanged Notes or Varied Notes.

Any such exchange or variation shall be binding on the Noteholders and shall be notified to them in accordance with Condition 15 (*Notices*) as soon as practicable thereafter.

SCHEDULE TO THE EURO 12 YEAR SPECIFIC TERMS AND CONDITIONS

1. Status of the Euro 12 Year Non-Call Notes and the Negative Pledge

This Clause 1 supersedes and replaces Condition 3 (*Status of the Notes*) and Condition 4 (*Negative Pledge*).

1.1 Deeply Subordinated Notes

The Euro 12 Year Non-Call Notes are deeply subordinated notes ("**Deeply Subordinated Notes**") issued pursuant to the provisions of Article L.228-97 of the French *Code de commerce*. The principal and interest on the Euro 12 Year Non-Call Notes constitute direct, unconditional, unsecured and deeply subordinated obligations (*titres subordonnés de dernier rang*) of the Issuer and rank and will rank:

- subordinated to present and future *prêts participatifs*, Ordinary Subordinated Obligations and Unsubordinated Obligations of the Issuer;
- *pari passu* among themselves and *pari passu* with all other present and future deeply subordinated obligations of the Issuer; and
- senior only to the Equity Securities of the Issuer.

1.2 Payment on the Euro 12 Year Non-Call Notes in the event of the liquidation of the Issuer

If any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer (*liquidation judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason, the payments of the creditors of the Issuer shall be made in the order of priority set out below (in each case subject to the payment in full of priority creditors) and no payment of principal and interest (including any outstanding Arrears of Interest and/or Additional Interest Amount) on the Euro 12 Year Non-Call Notes may be made until all holders of other indebtedness (other than Parity Securities) have been paid in full.

In the event of liquidation of the Issuer, the Euro 12 Year Non-Call Notes shall rank in priority only to any payments to holders of Equity Securities. In the event of incomplete payment of unsubordinated creditors, the obligations of the Issuer in connection with the Euro 12 Year Non-Call Notes shall be terminated.

1.3 Negative Pledge

There will be no negative pledge in respect of the Euro 12 Year Non-Call Notes.

2. Interest

2.1 Rate of Interest and Interest Amount

- (i) From and including the Interest Commencement Date to but excluding the First Euro 12 Year Reset Date, the Rate of Interest for each Note shall be 5.375 per cent. per annum, payable annually in arrear on each Euro 12 Year Interest Payment Date up to, and including, the First Euro 12 Year Reset Date. The Fixed Coupon Amount payable in respect of each Euro 12 Year Non-Call Note on each Euro 12 Year Interest Payment Date up to and including the First Euro 12 Year Reset Date shall be EUR 5,375 per EUR 100,000 Specified Denomination.
- (ii) From and including the First Euro 12 Year Reset Date, the Rate of Interest for each Euro 12 Year Non-Call Note for each Relevant Euro Twelve Year Period shall be a reset rate equal to the Relevant Euro Twelve Year Reset Rate plus the Relevant Euro 12 Year Margin per annum payable annually in arrear on each Euro 12 Year Interest Payment Date from and including 29 January 2026.

For the purposes of sub-paragraph (ii) above, the Interest Amount payable in respect of each Euro 12 Year Non-Call Note on each Euro 12 Year Interest Payment Date following the First Euro 12 Year Reset Date shall be calculated by multiplying the product of the applicable Euro 12 Year Reset Rate and the Specified Denomination of such Euro 12 Year Non-Call Note by the Day Count Fraction and rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

2.2 Interest Deferral

(i) Optional Interest Payment

Interest which accrues during an Interest Period ending on but excluding a Euro 12 Year Interest Payment Date will be due and payable on that Euro 12 Year Interest Payment Date unless the Issuer, by notice to (x) the Noteholders in accordance with Condition 15 (*Notices*) and (y) the Fiscal Agent pursuant to sub-paragraph (iii) below, elects to defer payment of all (but not some only) of the interest accrued to that date, and the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose.

Any interest not paid on a Euro 12 Year Interest Payment Date and deferred in accordance with this paragraph shall so long as the same remains outstanding constitute "**Arrears of Interest**" and shall be payable as outlined below.

(ii) Compulsory Payment of Arrears of Interest

Arrears of Interest (together with the corresponding Additional Interest Amount) may, at the option of the Issuer, be paid in whole or in part at any time but all Arrears of Interest (together with the corresponding Additional Interest Amount) in respect of all Euro 12 Year Non-Call Notes for the time being outstanding shall become due and payable in full on whichever is the earliest of:

- (A) the tenth Business Day following the occurrence of a Compulsory Arrears of Interest Payment Event (as defined in 4 below); or
- (B) the date of any redemption of the Euro 12 Year Non-Call Notes in accordance with the provisions relating to redemption of the Euro 12 Year Non-Call Notes; or
- (C) the date upon which a judgment is made by a competent court for the voluntary or judicial liquidation of the Issuer (*liquidation amiable ou judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason.

Each amount of Arrears of Interest shall bear interest, in accordance with Article 1154 of the French Civil Code, as if they constituted the Nominal Amount of the Euro 12 Year Non-Call Notes at a rate which corresponds to the Rate of Interest from time to time applicable to the Euro 12 Year Non-Call Notes and the amount of such interest (the "**Additional Interest Amount**") with respect to Arrears of Interest shall be due and payable pursuant to this provision and shall be calculated by the Calculation Agent applying the Rate of Interest to the amount of the Arrears of Interest and otherwise *mutatis mutandis* as provided in the foregoing provisions hereof. The Additional Interest Amount accrued up to any Euro 12 Year Interest Payment Date shall be added, to the extent permitted by applicable law and for the purpose only of calculating the Additional Interest Amount accruing thereafter, to the amount of Arrears of Interest remaining unpaid on such Euro 12 Year Interest Payment Date as if such amount constituted Arrears of Interest.

(iii) Notice of Deferral and Payment of Arrears of Interest

The Issuer shall give not less than five (5) nor more than thirty (30) Business Days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) and to the Fiscal Agent:

- (A) of any Euro 12 Year Interest Payment Date on which the Issuer elects to defer interest as provided in sub-paragraph (i) above; and

- (B) of any date upon which amounts in respect of Arrears of Interest and/or Additional Interest Amounts shall become due and payable.

So long as the Euro 12 Year Non-Call Notes are listed on the regulated market of Euronext Paris and the rules of such stock exchange so require, notice of any such deferral shall also be given as soon as reasonably practicable to such stock exchange.

(iv) Partial Payment of Arrears of Interest and Additional Interest Amounts

If amounts in respect of Arrears of Interest and Additional Interest Amounts are paid in part:

- (A) all unpaid amounts of Arrears of Interest shall be payable before any Additional Interest Amounts;
- (B) Arrears of Interest accrued for any period shall not be payable until full payment has been made of all Arrears of Interest that have accrued during any earlier period and the order of payment of Additional Interest Amounts shall follow that of the Arrears of Interest to which they relate; and
- (C) the amount of Arrears of Interest or Additional Interest Amounts payable in respect of any Euro 12 Year Non-Call Note in respect of any period, shall be *pro rata* to the total amount of all unpaid Arrears of Interest or, as the case may be, Additional Interest Amounts accrued in respect of that period to the date of payment.

3. Redemption

3.1 No fixed Maturity Date

The Euro 12 Year Non-Call Notes have no fixed Maturity Date on which they will be redeemed.

3.2 Optional Redemption from the First Euro 12 Year Call Date

The Issuer may, at its option, subject to having given not more than 45 nor less than 30 calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable), redeem the Euro 12 Year Non-Call Notes in whole, but not in part, at their Specified Denomination per Euro 12 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption on the First Euro 12 Year Call Date or on any Euro 12 Year Interest Payment Date falling thereafter.

3.3 Redemption for Taxation Reasons

- (i) If, by reason of any change in French law or published regulations becoming effective after the Issue Date, the Issuer would on the occasion of the next payment of principal or interest due in respect of the Euro 12 Year Non-Call Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 8(b) (*Additional Amounts*) (a "**Tax Gross-Up Event**"), the Issuer may, at its option, at any time, subject to having given not more than 60 nor less than 30 calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the Euro 12 Year Non-Call Notes, at their Specified Denomination per Euro 12 Year Non-Call Note together with any interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and interest without withholding for French taxes.
- (ii) If the Issuer would on the next payment of principal or interest in respect of the Euro 12 Year Non-Call Notes be prevented by French law from making payment to the Noteholders of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 8(b) (*Additional Amounts*) (such event, together with a Tax Gross-Up Event, being a "**Withholding Tax Event**"), then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the Euro 12 Year Non-Call Notes then outstanding, at their Specified Denomination per Euro 12 Year Non-Call Note together with any interest accrued (including Arrears of Interest

and any Additional Interest Amount) to the date set for redemption on the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the Euro 12 Year Non-Call Notes, or, if applicable, Receipts or Coupons or, if that date is passed, as soon as practicable thereafter.

- (iii) If an opinion of a recognised law firm of international standing has been delivered to the Issuer and the Fiscal Agent, stating that by reason of a change in French law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the tax regime of any payments under the Euro 12 Year Non-Call Notes is modified and such modification results in payments of interest payable by the Issuer in respect of the Euro 12 Year Non-Call Notes being no longer deductible in whole or in part (a "**Tax Deductibility Event**"), so long as this cannot be avoided by the Issuer taking reasonable measures available to it at the time, the Issuer may redeem the Euro 12 Year Non-Call Notes in whole, but not in part, at 101 per cent. of their Specified Denomination per Euro 12 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption, on the latest practicable date on which the Issuer could make such payment with interest payable being tax deductible in France or, if such date is past, as soon as practicable thereafter. The Issuer shall give the Fiscal Agent notice of any such redemption not less than 30 nor more than 45 calendar days before the date fixed for redemption and the Fiscal Agent shall promptly thereafter publish a notice of redemption in accordance with Condition 15 (*Notices*). A Tax Deductibility Event shall be deemed not to have occurred if any such change in law or regulation results from the Finance Act for 2013 (*loi de finances pour 2013*) n°2012-1509 dated 29 December 2012 (the "**Finance Act**").

3.4 Optional Redemption due to Accounting Event

If an Accounting Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 12 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 12 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) a copy of the letter or report referred to in the definition of "Accounting Event".

3.5 Optional Redemption due to Rating Methodology Event

If a Rating Methodology Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 12 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 12 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) evidence of the written confirmation referred to in the definition of "Rating Methodology Event".

3.6 Optional Redemption on Substantial Repurchase Event

If a Substantial Repurchase Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the Euro 12 Year Non-Call Notes at any time, at 101 per cent. of their Specified Denomination per Euro 12 Year Non-Call Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption.

3.7 Exchange and Variation

If at any time the Issuer determines that a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event has occurred on or after the Issue Date, the Issuer may, as an alternative to paragraphs 3.3 to 3.5 above, on any Euro 12 Year Interest Payment Date, without the consent of the Noteholders, (i) exchange the Euro 12 Year Non-Call Notes for new notes replacing the Euro 12 Year Non-Call Notes (the "**Exchanged Notes**"), or (ii) vary the terms of the Euro 12 Year Non-Call Notes (the "**Varied Notes**"), so that in either case (A) in the case of an Accounting Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is recorded as "equity" in the audited annual or the semi-annual consolidated financial statements of the Issuer pursuant to IFRS or any other accounting standards that may replace IFRS for the purposes of preparing the annual audited consolidated financial statements of the Issuer, (B) in the case of a Withholding Tax Event, payments of principal and interest in respect of the Exchanged Notes or Varied Notes (as the case may be) are not subject to deduction or withholding by reason of French law or published regulations, (C) in the case of a Tax Deductibility Event, payments of interest payable by the Issuer in respect of the Exchanged Notes or Varied Notes (as the case may be) are deductible to the extent permitted by the Finance Act for 2013 referred to in paragraph 3.3(iii) above or (D) in the case of a Rating Methodology Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is assigned "equity credit" by the relevant Rating Agency that is at least the same as that which was assigned to the Euro 12 Year Non-Call Notes on the Issue Date, or if such equity credit was not assigned on the Issue Date, at the date when the equity credit was assigned for the first time. Any such exchange or variation is subject to the following conditions:

- (i) the Issuer giving not less than 30 nor more than 45 calendar days' notice to the Noteholders in accordance with Condition 15 (*Notices*);
- (ii) the Issuer complying with the rules of any stock exchange (or any other relevant authority) on which the Euro 12 Year Non-Call Notes are for the time being listed or admitted to trading, and (for so long as the rules of such exchange require) the publication of any appropriate supplement, listing particulars or offering circular in connection therewith, and the Exchanged or Varied Notes continue to be listed or admitted on the same stock exchange as the Euro 12 Year Non-Call Notes if they were listed immediately prior to the relevant exchange or variation;
- (iii) the Issuer paying any Arrears of Interest and any Additional Interest Amount in full prior to such exchange or variation;
- (iv) the Exchanged or Varied Notes shall maintain the same ranking in liquidation, the same interest rate and interest payment dates, the same First Euro 12 Year Call Date, the same First Euro 12 Year Reset Date and early redemption rights (provided that the relevant exchange or variation may not itself trigger any early redemption right), the same rights to accrued or Arrears of Interest, any Additional Interest Amount and any other amounts payable under the Notes which, in each case, has accrued to Noteholders and has not been paid, the same rights to principal and interest, and, if publicly rated by Moody's and/or Standard & Poor's immediately prior to such exchange or variation, at least the same credit rating immediately after such exchange or variation by both Moody's and Standard & Poor's if the Euro 12 Year Non-Call Notes are publicly rated by both such rating agencies, or by the relevant such rating agency if the Euro 12 Year Non-Call Notes are only rated by one such rating agency, as compared with the relevant rating(s) immediately prior to such exchange or variation (as determined by the Issuer using reasonable measures available to it including discussions with Moody's and/or Standard & Poor's to the extent practicable) and shall not contain terms providing for the mandatory deferral of interest and do not contain terms providing for loss absorption through principal write-down or conversion to shares;
- (v) the terms of the exchange or variation not being prejudicial to the interests of the Noteholders, including compliance with (iv) above, as certified to the benefit of the Noteholders by a director of the Issuer, having consulted with an independent investment bank of international standing (for the avoidance of doubt the Fiscal Agent shall accept the certificates of the Issuer as sufficient evidence of the occurrence of a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event and that such exchange or variation to the terms of the Euro 12 Year Non-Call Notes are not prejudicial to the interest of the Noteholders); and

- (vi) the issue of legal opinions addressed to the Fiscal Agent for the benefit of the Noteholders from one or more international law firms of good reputation confirming (x) that the Issuer has capacity to assume all rights and obligations under the Exchanged Notes or Varied Notes and has obtained all necessary corporate or governmental authorisation to assume all such rights and obligations and (y) the legality, validity and enforceability of the Exchanged Notes or Varied Notes.

Any such exchange or variation shall be binding on the Noteholders and shall be notified to them in accordance with Condition 15 (*Notices*) as soon as practicable thereafter.

SCHEDULE TO THE GBP SPECIFIC TERMS AND CONDITIONS

1. Status of the GBP Notes and the Negative Pledge

This Clause 1 supersedes and replaces Condition 3 (*Status of the Notes*) and Condition 4 (*Negative Pledge*).

1.1 Deeply Subordinated Notes

The GBP Notes are deeply subordinated notes ("**Deeply Subordinated Notes**") issued pursuant to the provisions of Article L.228-97 of the French *Code de commerce*. The principal and interest on the GBP Notes constitute direct, unconditional, unsecured and deeply subordinated obligations (*titres subordonnés de dernier rang*) of the Issuer and rank and will rank:

- subordinated to present and future *prêts participatifs*, Ordinary Subordinated Obligations and Unsubordinated Obligations of the Issuer;
- *pari passu* among themselves and *pari passu* with all other present and future deeply subordinated obligations of the Issuer; and
- senior only to the Equity Securities of the Issuer.

1.2 Payment on the GBP Notes in the event of the liquidation of the Issuer

If any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer (*liquidation judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason, the payments of the creditors of the Issuer shall be made in the order of priority set out below (in each case subject to the payment in full of priority creditors) and no payment of principal and interest (including any outstanding Arrears of Interest and/or Additional Interest Amount) on the GBP Notes may be made until all holders of other indebtedness (other than Parity Securities) have been paid in full.

In the event of liquidation of the Issuer, the GBP Notes shall rank in priority only to any payments to holders of Equity Securities. In the event of incomplete payment of unsubordinated creditors, the obligations of the Issuer in connection with the GBP Notes shall be terminated.

1.3 Negative Pledge

There will be no negative pledge in respect of the GBP Notes.

2. Interest

2.1 Rate of Interest and Interest Amount

- (i) From and including the Interest Commencement Date to but excluding the First GBP Reset Date, the Rate of Interest for each Note shall be 6.00 per cent. per annum, payable semi-annually in arrear on each GBP Interest Payment Date up to, and including, the First GBP Reset Date. The Fixed Coupon Amount payable in respect of each GBP Note on each GBP Interest Payment Date up to and including the First GBP Reset Date shall be GBP 3,000 per GBP 100,000 Specified Denomination.
- (ii) From and including the First GBP Reset Date, the Rate of Interest for each GBP Note for each Relevant GBP Thirteen Year Period shall be a reset rate equal to the Relevant GBP Thirteen Year Reset Rate plus the Relevant GBP Margin per annum payable semi-annually in arrear on each GBP Interest Payment Date from and including 29 July 2026.

For the purposes of sub-paragraph (ii) above, the Interest Amount payable in respect of each GBP Note on each GBP Interest Payment Date following the First GBP Reset Date shall be calculated by multiplying the product of the applicable GBP Reset Rate and the Specified Denomination of such GBP Note by the Day Count Fraction and rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

2.2 Interest Deferral

(i) Optional Interest Payment

Interest which accrues during an Interest Period ending on but excluding a GBP Interest Payment Date will be due and payable on that GBP Interest Payment Date unless the Issuer, by notice to (x) the Noteholders in accordance with Condition 15 (*Notices*) and (y) the Fiscal Agent pursuant to subparagraph (iii) below, elects to defer payment of all (but not some only) of the interest accrued to that date, and the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose.

Any interest not paid on a GBP Interest Payment Date and deferred in accordance with this paragraph shall so long as the same remains outstanding constitute "**Arrears of Interest**" and shall be payable as outlined below.

(ii) Compulsory Payment of Arrears of Interest

Arrears of Interest (together with the corresponding Additional Interest Amount) may, at the option of the Issuer, be paid in whole or in part at any time but all Arrears of Interest (together with the corresponding Additional Interest Amount) in respect of all GBP Notes for the time being outstanding shall become due and payable in full on whichever is the earliest of:

- (A) the tenth Business Day following the occurrence of a Compulsory Arrears of Interest Payment Event (as defined in 4 below); or
- (B) the date of any redemption of the GBP Notes in accordance with the provisions relating to redemption of the GBP Notes; or
- (C) the date upon which a judgment is made by a competent court for the voluntary or judicial liquidation of the Issuer (*liquidation amiable ou judiciaire*) or for the sale of the whole of the business (*cession totale de l'entreprise*) following an order of judicial reorganisation (*redressement judiciaire*) in respect of the Issuer or in the event of the liquidation of the Issuer for any other reason.

Each amount of Arrears of Interest shall bear interest, in accordance with Article 1154 of the French Civil Code, as if they constituted the Nominal Amount of the GBP Notes at a rate which corresponds to the Rate of Interest from time to time applicable to the GBP Notes and the amount of such interest (the "**Additional Interest Amount**") with respect to Arrears of Interest shall be due and payable pursuant to this provision and shall be calculated by the Calculation Agent applying the Rate of Interest to the amount of the Arrears of Interest and otherwise *mutatis mutandis* as provided in the foregoing provisions hereof. The Additional Interest Amount accrued up to any GBP Interest Payment Date shall be added, to the extent permitted by applicable law and for the purpose only of calculating the Additional Interest Amount accruing thereafter, to the amount of Arrears of Interest remaining unpaid on such GBP Interest Payment Date as if such amount constituted Arrears of Interest.

(iii) Notice of Deferral and Payment of Arrears of Interest

The Issuer shall give not less than five (5) nor more than thirty (30) Business Days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) and to the Fiscal Agent:

- (A) of any GBP Interest Payment Date on which the Issuer elects to defer interest as provided in subparagraph (i) above; and
- (B) of any date upon which amounts in respect of Arrears of Interest and/or Additional Interest Amounts shall become due and payable.

So long as the GBP Notes are listed on the regulated market of Euronext Paris and the rules of such stock exchange so require, notice of any such deferral shall also be given as soon as reasonably practicable to such stock exchange.

(iv) Partial Payment of Arrears of Interest and Additional Interest Amounts

If amounts in respect of Arrears of Interest and Additional Interest Amounts are paid in part:

- (A) all unpaid amounts of Arrears of Interest shall be payable before any Additional Interest Amounts;
- (B) Arrears of Interest accrued for any period shall not be payable until full payment has been made of all Arrears of Interest that have accrued during any earlier period and the order of payment of Additional Interest Amounts shall follow that of the Arrears of Interest to which they relate; and
- (C) the amount of Arrears of Interest or Additional Interest Amounts payable in respect of any GBP Note in respect of any period, shall be *pro rata* to the total amount of all unpaid Arrears of Interest or, as the case may be, Additional Interest Amounts accrued in respect of that period to the date of payment.

3. Redemption

3.1 No fixed Maturity Date

The GBP Notes have no fixed Maturity Date on which they will be redeemed.

3.2 Optional Redemption from the First GBP Call Date

The Issuer may, at its option, subject to having given not more than 45 nor less than 30 calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable), redeem the GBP Notes in whole, but not in part, at their Specified Denomination per GBP Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption on the First GBP Call Date or on any GBP Interest Payment Date falling thereafter.

3.3 Redemption for Taxation Reasons

- (i) If, by reason of any change in French law or published regulations becoming effective after the Issue Date, the Issuer would on the occasion of the next payment of principal or interest due in respect of the GBP Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 8(b) (*Additional Amounts*) (a "**Tax Gross-Up Event**"), the Issuer may, at its option, at any time, subject to having given not more than 60 nor less than 30 calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the GBP Notes, at their Specified Denomination per GBP Note together with any interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and interest without withholding for French taxes.
- (ii) If the Issuer would on the next payment of principal or interest in respect of the GBP Notes be prevented by French law from making payment to the Noteholders of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 8(b) (*Additional Amounts*) (such event, together with a Tax Gross-Up Event, being a "**Withholding Tax Event**"), then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven calendar days' prior notice to the Noteholders in accordance with Condition 15 (*Notices*), redeem all, but not some only, of the GBP Notes then outstanding, at their Specified Denomination per GBP Note together with any interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date set for redemption on the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the GBP Notes, or, if applicable, Receipts or Coupons or, if that date is passed, as soon as practicable thereafter.
- (iii) If an opinion of a recognised law firm of international standing has been delivered to the Issuer and the Fiscal Agent, stating that by reason of a change in French law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the tax regime of any payments under the GBP Notes is modified and such modification results in payments of interest payable by the Issuer in respect of the GBP Notes being no longer

deductible in whole or in part (a "**Tax Deductibility Event**"), so long as this cannot be avoided by the Issuer taking reasonable measures available to it at the time, the Issuer may redeem the GBP Notes in whole, but not in part, at 101 per cent. of their Specified Denomination per GBP Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption, on the latest practicable date on which the Issuer could make such payment with interest payable being tax deductible in France or, if such date is past, as soon as practicable thereafter. The Issuer shall give the Fiscal Agent notice of any such redemption not less than 30 nor more than 45 calendar days before the date fixed for redemption and the Fiscal Agent shall promptly thereafter publish a notice of redemption in accordance with Condition 15 (*Notices*). A Tax Deductibility Event shall be deemed not to have occurred if any such change in law or regulation results from the Finance Act for 2013 (*loi de finances pour 2013*) n°2012-1509 dated 29 December 2012 (the "**Finance Act**").

3.4 Optional Redemption due to Accounting Event

If an Accounting Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the GBP Notes at any time, at 101 per cent. of their Specified Denomination per GBP Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) a copy of the letter or report referred to in the definition of "Accounting Event".

3.5 Optional Redemption due to Rating Methodology Event

If a Rating Methodology Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the GBP Notes at any time, at 101 per cent. of their Specified Denomination per GBP Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption. Prior to the giving of any such notice of redemption, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent in order to be made available to the Noteholders (i) a certificate signed by two duly authorised representatives of the Issuer confirming that the Issuer is entitled to effect such redemption and setting out the facts showing that the conditions precedent to the right to effect such redemption have been met and (ii) evidence of the written confirmation referred to in the definition of "Rating Methodology Event".

3.6 Optional Redemption on Substantial Repurchase Event

If a Substantial Repurchase Event has occurred, then the Issuer may, subject to having given not less than 30 nor more than 45 calendar days' notice to the Fiscal Agent and, in accordance with Condition 15 (*Notices*), the Noteholders (which notice shall be irrevocable) redeem all, but not some only, of the GBP Notes at any time, at 101 per cent. of their Specified Denomination per GBP Note, together with all interest accrued (including Arrears of Interest and any Additional Interest Amount) to the date fixed for redemption.

3.7 Exchange and Variation

If at any time the Issuer determines that a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event has occurred on or after the Issue Date, the Issuer may, as an alternative to paragraphs 3.3 to 3.5 above, on any GBP Interest Payment Date, without the consent of the Noteholders, (i) exchange the GBP Notes for new notes replacing the GBP Notes (the "**Exchanged Notes**"), or (ii) vary the terms of the GBP Notes (the "**Varied Notes**"), so that in either case (A) in the case of an Accounting Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is recorded as "equity" in the audited annual or the semi-annual consolidated financial statements of the Issuer pursuant to IFRS or any other accounting standards that may replace IFRS for the purposes of preparing the annual audited consolidated financial statements of the Issuer, (B) in the case of

a Withholding Tax Event, payments of principal and interest in respect of the Exchanged Notes or Varied Notes (as the case may be) are not subject to deduction or withholding by reason of French law or published regulations, (C) in the case of a Tax Deductibility Event, payments of interest payable by the Issuer in respect of the Exchanged Notes or Varied Notes (as the case may be) are deductible to the extent permitted by the Finance Act for 2013 referred to in paragraph 3.3(iii) above or (D) in the case of a Rating Methodology Event, the aggregate nominal amount of the Exchanged Notes or Varied Notes (as the case may be) is assigned "equity credit" by the relevant Rating Agency that is at least the same as that which was assigned to the GBP Notes on the Issue Date, or if such equity credit was not assigned on the Issue Date, at the date when the equity credit was assigned for the first time. Any such exchange or variation is subject to the following conditions:

- (i) the Issuer giving not less than 30 nor more than 45 calendar days' notice to the Noteholders in accordance with Condition 15 (*Notices*);
- (ii) the Issuer complying with the rules of any stock exchange (or any other relevant authority) on which the GBP Notes are for the time being listed or admitted to trading, and (for so long as the rules of such exchange require) the publication of any appropriate supplement, listing particulars or offering circular in connection therewith, and the Exchanged or Varied Notes continue to be listed or admitted on the same stock exchange as the GBP Notes if they were listed immediately prior to the relevant exchange or variation;
- (iii) the Issuer paying any Arrears of Interest and any Additional Interest Amount in full prior to such exchange or variation;
- (iv) the Exchanged or Varied Notes shall maintain the same ranking in liquidation, the same interest rate and interest payment dates, the same First GBP Call Date, the same First GBP Reset Date and early redemption rights (provided that the relevant exchange or variation may not itself trigger any early redemption right), the same rights to accrued or Arrears of Interest, any Additional Interest Amount and any other amounts payable under the Notes which, in each case, has accrued to Noteholders and has not been paid, the same rights to principal and interest, and, if publicly rated by Moody's and/or Standard & Poor's immediately prior to such exchange or variation, at least the same credit rating immediately after such exchange or variation by both Moody's and Standard & Poor's if the GBP Notes are publicly rated by both such rating agencies, or by the relevant such rating agency if the GBP Notes are only rated by one such rating agency, as compared with the relevant rating(s) immediately prior to such exchange or variation (as determined by the Issuer using reasonable measures available to it including discussions with Moody's and/or Standard & Poor's to the extent practicable) and shall not contain terms providing for the mandatory deferral of interest and do not contain terms providing for loss absorption through principal write-down or conversion to shares;
- (v) the terms of the exchange or variation not being prejudicial to the interests of the Noteholders, including compliance with (iv) above, as certified to the benefit of the Noteholders by a director of the Issuer, having consulted with an independent investment bank of international standing (for the avoidance of doubt the Fiscal Agent shall accept the certificates of the Issuer as sufficient evidence of the occurrence of a Withholding Tax Event, a Tax Deductibility Event, an Accounting Event or a Rating Methodology Event and that such exchange or variation to the terms of the GBP Notes are not prejudicial to the interest of the Noteholders); and
- (vi) the issue of legal opinions addressed to the Fiscal Agent for the benefit of the Noteholders from one or more international law firms of good reputation confirming (x) that the Issuer has capacity to assume all rights and obligations under the Exchanged Notes or Varied Notes and has obtained all necessary corporate or governmental authorisation to assume all such rights and obligations and (y) the legality, validity and enforceability of the Exchanged Notes or Varied Notes.

Any such exchange or variation shall be binding on the Noteholders and shall be notified to them in accordance with Condition 15 (*Notices*) as soon as practicable thereafter.

RECENT EVENTS

1. 24 January 2013 – Inaugural hybrid bond offering

The following information was published via a press release dated 24 January 2013:

"EDF completes its inaugural hybrid bond offering, to raise more than €6 billion in total

- **Successful pricing of additional USD 3 billion offering**
- **Largest ever combined corporate hybrid offerings across all three currencies⁽¹⁾**

EDF has today successfully priced a USD 3 billion hybrid bond offering, adding to the offerings of hybrid capital securities in euros and sterling earlier this week. The combined offerings will allow the group to raise the equivalent of approximately €6.2 billion in total across all three currencies, which will represent the largest corporate hybrid issuance ever achieved:

- USD 3 billion at 5.25% coupon with a 10-year first call date⁽²⁾
- €1.25 billion at 4.25% coupon for the tranche with a 7-year first call date⁽³⁾
- €1.25 billion at 5.375% coupon for the tranche with a 12-year first call date⁽³⁾
- €1.25 billion at 6% coupon for the tranche with a 13-year first call date⁽³⁾

Each of the offerings met with a very strong level of interest from institutional investors and was several times oversubscribed. The strong demand came from investors in the US, in Asia, in the United Kingdom and in Continental Europe, allowing the group to diversify geographically its investor base.

Thomas Piquemal, Group Chief Financial Officer says *"Our inaugural hybrid bond issuance was very well received by institutional investors, with all four offerings several times oversubscribed. We will manage to raise €6.2 billion providing flexibility in financing our industrial strategy while achieving a lower cost of capital."*

2. 14 January 2013 – Agreement on the repayment of the CSPE deficit

The following information was published via a press release dated 14 January 2013:

"Agreement on the repayment of the CSPE deficit

EDF and the French State have reached an agreement whereby EDF will receive full compensation for having borne the cumulated financial deficits related to the Contribution to Electricity Public Services (CSPE) mechanism over the years.

The CSPE was designed as a tax levied on electricity end-customers' bills. Its level is set by the State and its purpose is to enable French electricity incumbent players, like EDF, to recover the extra charges incurred in performing their mandatory public service assignments. As such, the CSPE contributes to the financing of the development of renewable power generation, of the social electricity tariffs and of the nationwide equalization of electricity tariffs. Since 2007, the level set for the CSPE collection has been insufficient to compensate for the increase in the charges. This resulted in the accumulation of a CSPE deficit, borne by EDF only, which weighs on the group indebtedness.

The agreement found between EDF and the French authorities will provide the reimbursement by the French State of the receivable made of the CSPE deficit as of 31 December 2012 of c. €4.3 billion⁽¹⁾ and of the cumulated implied financing costs of this deficit of c. €0.6 billion. This receivable of c. €4.9 billion will be staggered according to a gradual schedule and will be fully repaid by 31 December 2018. The outstanding receivable will bear interest at market rates.

Following the above-mentioned agreement, EDF will account for a financial income of c.€0.6 billion stemming from the recognition of repayment of the historic CSPE deficit financing costs as of 31 December 2012⁽²⁾.

Discussions between EDF and the French State continue in order to relief the Group net financial debt, on which the CSPE deficit currently weighs.

(1) The final receivable amount will be confirmed later in 2013 when the French energy regulator (CRE) will validate the actual CSPE deficit for 2012.

(2) The detailed accounting impacts of the agreement will be published with EDF's 2012 financial results on 14 February 2013"

3. 11 January 2013 – Disposal of Exelon shares by EDF

The following information was published via a press release dated 11 January 2013:

"EDF announces the disposal of Exelon shares

EDF announces the disposal at year end 2012 of the totality of its non-strategic stake in Exelon (EXC.N), representing 1.6% of the share capital of the NYSE-listed company.

The disposal generated proceeds of c. \$470m, corresponding to an average selling price of \$34.70 per share i.e. an 18.6% premium on Exelon's latest closing share price (\$29.26 as of January 10th, 2013)."

4. 18 December 2012 - Rybnik power plant

On 18 December 2012, EDF has suspended for three months the construction of its supercritical 900 MW coal-fired power plant in Rybnik, Poland. EDF will re-assess the resumption of this project based on the fulfillment of certain conditions, including, amongst others, the obtaining of free CO2 allowances that were anticipated at the start of the project and the evolution of legislation on co-combustion of coal and biomass.

The Group will make a final decision within three months.

5. 4 December 2012 - EDF and ENEL are ending their global nuclear collaboration

The following information was published via a press release dated 4 December 2012:

In November 2007, EDF and ENEL signed a series of agreements governing their nuclear power generation collaboration, under the terms of which ENEL purchased a 12.5% stake in the Flamanville 3 EPR project, with each of the partners benefiting from options to invest in the nuclear projects launched by the other partner.

In light of the changes in the economic backdrop and the Flamanville 3 EPR project, in addition to the abandonment of the Italian nuclear revival programme following the June 2011 referendum, ENEL and EDF began studying avenues to revise their industrial collaboration.

Today, EDF and ENEL are announcing the termination of this collaboration and, as a result, are renouncing their respective options in the other partner's programmes, with ENEL abandoning its stake in the Flamanville 3 EPR project.

Consequently, EDF will refund ENEL's investment in the Flamanville 3 EPR project, in the amount of 613 million euros, plus accrued interest. In return, EDF will regain all of the rights to the Flamanville 3 EPR project, including all future revenue from electricity sales.

ENEL's withdrawal from the Flamanville 3 EPR project also means that the early access option-backed contracts granted to ENEL for EDF projects, under which ENEL received 1,200 MW for payment in 2012, will be terminated. This termination will be a gradual process – ENEL will receive 800 MW in 2013 and 320 MW in 2014, under the terms defined in these contracts.

The knowledge transfer agreements from which ENEL benefited are also being terminated.

6. 3 December 2012 - Flamanville EPR

The following information was published via a press release dated 3 December 2012:

"Flamanville EPR : costs revised, still on schedule

The experience gained since the launch of the EPR site at Flamanville, along with everything that has been achieved so far and the organisation put in place, all ensure an optimum overview of all of the industrial and financial parameters, especially as regards civil engineering. EDF is in a position to calculate the full cost for the construction of the EPR, which has increased by 2 billion euros*, with production of the first kWhs still scheduled for 2016.

Since the estimated cost was revised in July 2011 to 6 billion euros, significant milestones have been reached at the Flamanville EPR with the completion of 93% of the civil engineering and 36% of the electro-mechanical equipment in place, as well as the intake canal of the pumping station coming on stream at the start of November 2012.

The EPR is the first nuclear power station to be built in France for 15 years as well as being the first 3rd generation type. Over and above this "first of a kind" effect, other factors have also had a bearing on the total cost of construction for the Flamanville EPR. The development of the boiler design, additional engineering studies, the integration of new regulatory requirements and everything learned in the wake of Fukushima have also been taken into account. The cost update also relates to the additional costs as well as technical contingencies, such as the replacement of 45 consoles and the knock-on effects of this in terms of work scheduling and the financial impact of extending the construction deadlines.

In the words of Hervé Machenaud, Group Executive Director in charge of EDF Production and Engineering: *"The EPR will contribute to the country's energy supply and also represents one of the essential links which will ensure the continuity of our nuclear know-how, both in France and internationally. This major site is also a feat of significant industrial achievement, in terms of the technological challenges that have been overcome throughout the sector"*.

The Flamanville EPR was launched in December 2007 as a large-scale industrial site drawing together all of the parties involved in the nuclear sector in France, with a workforce in the region of 3200 in place in 2012 (60% regional workers, 2600 employed by external companies and 600 EDF staff), accounting for the 5 million hours of work delivered in 2012. The site is subject to regular inspections by ASN, the French Nuclear Safety Authority, who validates the progress of the project.

7. 29 November 2012 – French Council of State Decision re Electricity Distribution Tariffs (TURPE 3)

On 28 November 2012, the French Council of State (*Conseil d'Etat*) issued a decision overturning the 5 June 2009 order setting the third tariff on the use of public electricity transmission and distribution networks (*tarifs d'utilisation des réseaux publics de transport et de distribution d'électricité* or *TURPE 3*) for a 4-year period starting on 1 August 2009. EDF anticipates that new information regarding this decision will be available in June 2013 after the French Regulatory Commission for Energy (*Commission de Régulation de l'Energie*) clarifies the guidelines for implementation of this decision.

Group Total	47,153	51,969	6.6%

EDF Group sales over the first nine months of 2012 stood at €52 billion, up 10.2% compared with the same period in 2011, of which 6.6% was organic growth.

Sales in France, which accounted for 54% of 9M 2012 sales, recorded organic growth of 4.5%. This growth was mainly attributable to higher volumes sold as well as price and tariff increases, as the weather was colder compared with the same period last year.

Business outside of France accounted for 46% of the Group's sales in the first nine months of 2012. This includes Italy where the effects of fully consolidating Edison since end-May 2012 contributed €1.1 billion. Organic growth of 9.4% generated outside of France was driven by Edison and the development of EDF Energies Nouvelles.

Financial objectives

2012 targets:

The Group is continuing its efforts to resolve the question of the CSPE deficit before 31 December 2012. Against this backdrop and given performance during the first nine months of 2012, EDF is reiterating its 2012 guidance:

- Organic growth of EBITDA¹³ of between 4% and 6%

¹³EBITDA growth at constant scope and exchange rates

- Growth of net income excluding non-recurring items of between 5% and 10%
- Net financial debt/EBITDA less than 2.5x
- Dividend for 2012 at least stable compared with 2011

2015 targets:

In July 2011, the Group published its medium-term targets covering the period 2011-2015:

- Average annual organic growth of EBITDA¹ of between 4% and 6%
- Average annual growth of net income excluding non-recurring items of between 5% and 10%
- Net financial debt/EBITDA less than 2.5x
- Payout of between 55% and 65%

In view of deteriorating business conditions, EDF group is currently working on the assumption that its EBITDA will be stable in 2013 and that growth will resume in 2014 and thereafter, with the objective of paying at least a stable dividend.

France: sales growth of 4.5% mainly due to weather

<i>in millions of euros</i>	9M 2011	9M 2012	Organic growth (%)
Sales	27,009	28,228	4.5%

In **France**, 9M 2012 sales amounted to €28.2 billion, up 4.5%. Growth in sales was mainly attributable to higher electricity (+19 TWh) and gas (+2 TWh) volumes sold and to the increase in prices and tariffs (in July 2011 and July 2012) for €518 million. The increase in electricity volumes reflects colder weather (+8.5 TWh compared with the first nine months of 2011).

At end-September 2012, the 19.6 TWh decrease in nuclear output compared with the same period in 2011 was offset by a hydropower output increase of 6.4 TWh, greater use of fossil-fired plants and purchases on the wholesale market to meet the rising demand for electricity. The drop in nuclear output was mostly due to greater planned outage extensions compared with 2011, technical problems and additional controls and works carried out during these outages. Given nuclear output to end-September and the fact that fewer planned outages are scheduled for the fourth quarter of 2012 than there were for the same period in 2011, the Group has revised its 2012 nuclear output target to approximately 410 TWh.

United Kingdom: development of gas sales and net seller position on wholesale electricity markets, due to growth in nuclear and fossil-fired output

<i>in millions of euros</i>	9M 2011	9M 2012	Organic growth (%)
Sales	6,247	7,001	4.1%

In the **United Kingdom**, sales stood at €7 billion, up 12.1% year-on-year. This increase was due to a forex effect totalling €497 million and an organic growth of 4.1%, or €257 million.

Organic growth was primarily the result of higher gas sales (+€227 million) due, in equal measures, to a volume effect and a price effect. In the B2C segment of the electricity business, lower consumption was offset by an increase in the number of customers. However, in the B2B segment, sales volumes fell due to heavy competition. Structured sales were down as British Energy's long-standing contracts reached their term. This overall negative volume effect in the electricity business and the drop in services provided to the network, which was sold in 2010, were offset by the price hikes in the second half of 2011. The price increases reflected the rising cost of energy, with no impact on margin.

Due to the 1.6 TWh rise in nuclear output (+3.7% compared with 2011), the Group is setting a new output target of between 57 and 60 TWh for 2012.

Italy: growth in sales, resulting from higher hydrocarbon volumes and prices

<i>in millions of euros</i>	9M 2011	9M 2012	Organic growth (%)
Sales	4,656	6,897	23.7%
o/w Edison	4,292	6,538	26.0%

The Group's holding in Edison has stood at 99.48% since 6 September 2012. It has been fully consolidated since the acquisition of Delmi's equity stake in Transalpina di Energia, the holding company, on 24 May 2012.

Sales in **Italy** amounted to €6.9 billion, an organic increase of 23.7% compared with the first nine months of 2011.

Edison's contribution totalled €6.5 billion, an organic increase of 26.0% versus the first nine months of 2011, amid a deteriorated economic environment in Italy, which has driven gas and electricity consumption down. Organic growth of Edison's sales, which did not have an impact on the margin, resulted from the increase in hydrocarbon activities, which offset the drop in volumes in the electricity generation and sales segment.

In September 2012, Edison obtained a favourable outcome to the arbitration of long-term gas supply contracts with Rasgas (Qatar) and ENI (Libya). These successful outcomes will have a positive impact of approximately €700 million on the Group's 2012 EBITDA, including approximately €350 million for past years. The revision of the contract with Sonatrach (Algeria) will have an impact in 2013. In the fourth quarter of 2012, renegotiations began with gas suppliers in order to restore margins, which are being affected again by the price of gas.

Other International: increase in sales in Belgium and Austria

<i>in millions of euros</i>	9M 2011	9M 2012	Organic growth (%)
Sales	5,446	5,642	3.4%

Sales of the **Other International** segment came to €5.6 billion, i.e. +3.4% in organic terms compared with the first nine months of 2011.

Sales in Belgium recorded organic growth of 3.3%. This increase mostly resulted from the pass-through effect of electricity and gas rate hikes, without any impact on the margin, and an increase in gas volumes sold due to the favourable weather effect.

Countries in Central Europe (including Poland, Austria and Hungary primarily) registered an organic sales growth by 7.6%, (from €1,917 million to €2,027 million). Growth was concentrated in Austria (Estag Group), due, in particular, to the development of electricity optimisation activities.

Sales in other countries (including the United States, Brazil and Asian countries) were 4.4% lower in organic terms (from €1,013 million to €1,015 million), which was due, in particular, to a drop in sales from Norte Fluminense (Brazil), whose output was affected by the maintenance outage of two gas combined cycles. Output and sales prices at CENG (USA) were also down year-on-year.

Other activities: robust growth from EDF Energies Nouvelles

<i>in millions of euros</i>	9M 2011	9M 2012	Organic growth (%)
Sales	3,795	4,201	9.2%

Other activities contributed €4.2 billion to Group sales, i.e. an organic increase of 9.2% compared with the first nine months of 2011.

EDF Energies Nouvelles' sales increased to €903 million, i.e. organic growth of 37.3% (+€270 million). This growth was partly attributable to the commissioning of generation plants in 2012, to the full-year impact of the new generation capacity that came on line in 2011 and good sun and wind conditions. In addition, growth also resulted from the doubling of assets disposals (DSSA) sales, mainly due to disposals of certain tranches of solar power farms.

EDF Trading sales were down 11.0% to €585 million, resulting, in particular, from difficult conditions in North America.

Dalkia Group's share of sales was €1,761 million, reflecting organic growth of +2.5%.

Important factors that could cause actual results, performance or achievements of the Group to differ materially from those contemplated in this document include in particular the successful implementation of EDF strategic, financial and operational initiatives based on its current business model as an integrated operator, changes in the competitive and regulatory framework of the energy markets, as well as risk and uncertainties relating to the Group's activities, the climatic environment, the volatility of raw materials prices and currency exchange rates, the strengthening of safety regulations, technological changes, changes in the general economic and political conditions in the countries where the Group operates, and risk and uncertainties relating to the consequences of the nuclear accident in Japan. Detailed information regarding these uncertainties and potential risks are available in the reference document (document de référence) of EDF filed with the Autorité des Marchés Financiers on 10 April 2012, which is available on the AMF's website at www.amf-france.org and on EDF's website at www.edf.com. MAIN HIGHLIGHTS SUBSEQUENT TO THE 31 JULY 2012 PUBLICATION

- **Inauguration of the CCGT plant in Martigues in France**

On 12 November 2012, EDF inaugurated the first Combined Cycle Gas facility at the Martigues site. CCGT is an excellent solution to problems posed by fluctuating demand and is environmentally friendly and energy efficient. Running on natural gas, the generation unit is now capable of delivering up to 465 MW of electricity at full capacity on the electricity grid of the Provence-Alpes-Côte-d'Azur region in France. The facility in Martigues is the second of its kind developed by EDF Group in France and the first to be built via "repowering", i.e. by transforming the existing facility, like the steam turbine, into a new unit comprised of a combustion turbine and an exhaust-recovery boiler. A second CCGT with the same capacity is currently under construction at the Martigues site and is expected to be operational in early 2013.

- **Publication of Alpiq's H1 and 9M 2012 earnings (EDF Group's holding: 25%)**

On 12 November 2012, Alpiq released 9M 2012 operating income that was down year-on-year, hit by falling electricity demand and prices. However, the core business benefited from a good level of output and the quality of its optimisation. As expected, Alpiq is continuing its cost-cutting programme aimed at saving approximately CHF 100 million to end-2012 and is reducing its trading risks. Moreover, the Group's net debt was cut to CHF 4.3 billion at end-June 2012 after selling Edipower and its energy supply division AAT; the Group is preparing other divestments before the end of 2014. The company expects its full-year earnings to fall sharply compared with its 2011 results with, in addition, possible impairments that would have significant negative one-off effects on 2012 earnings. Currently under discussion, the restructuring programme needs to be stepped up substantially in order to restore Alpiq's financial equilibrium.

- **“EDF & ME”: eight customer commitments**

On 6 November 2012, EDF presented the eight commitments it has made to its customers under the “EDF & ME” programme. Based on a poll of 21,000 customers, EDF made public its eight customer commitments, which are entirely dedicated to the relationship EDF has with its customers. These commitments offer simple, concrete solutions to the expectations of EDF’s 26 million individual customers. The eight commitments, which went into effect in November 2012, are part of EDF’s efforts to constantly improve its customer service, personalise its relationship with every customer and better control their energy use.

- **Edison offers shareholders the possibility of converting their savings shares**

From 2 November 2012, and until 30 November 2012, shareholders will be able to convert their savings shares into ordinary shares as defined by Edison’s Board of Directors; details are available on Edison’s website, the website of the Milan stock exchange or from authorised financial intermediaries.

- **Edison publishes its 9M 2012 earnings**

On 26 October 2012, Edison released its earnings report for the first nine months of 2012, which were up year-on-year on the back of the favourable arbitration on gas supply contracts with Rasgas (Qatar) and Eni (Libya). These contracts contributed €600 million to EBITDA over the period, which, combined with higher hydrocarbon generation, enabled the latter to reach €963 million at end-September 2012 (+62.7% compared with 2011). Consequently, EBITDA guidance of between €1.1 and €1.2 billion appears increasingly solid, despite persistent weakness on the Italian gas market in the fourth quarter. Edison’s Group interest in profit (loss) reached €241 million versus a €93 million loss over the same period in 2011. Net debt was reduced to €3 billion at end-September (vs. €3.9 billion at end-2011).

- **The French Council of State overturns the tariff order for the period 15 August 2009 to 13 August 2010**

In a ruling issued on 22 October 2012, the French Council of State (Conseil d’Etat), at the behest of the SIPPAREC (*Syndicat Intercommunal de la Périphérie de Paris pour l’Electricité et les Réseaux de Communication*), overturned the order issued on 13 August 2009 setting regulated tariffs on electricity sales. The Council demanded that ministers in charge of energy and the economy issue a new order within three months setting the regulated sales tariff for the period stretching from 15 August 2009 to 13 August 2010.

- **EDF confirms a lawsuit against Veolia Environnement was filed in the Paris commercial court**

EDF confirms that it took legal action on **22 October 2012** regarding the enforcement of contracts signed in 2000 and the joint management of Dalkia. In December 2000, EDF and Veolia Environnement reached an agreement on a partnership for developing a global energy services division. The contracts outlining this partnership were based on the principle of equal control and joint management of Dalkia Group and stipulated that EDF would take a 50% stake in Dalkia’s share capital. EDF and Veolia Environnement met on many occasions to establish this joint partnership, without success.

- **The no. 2 unit in Le Havre is operational again**

On 14 October 2012, the coal-fired no. 2 unit, with an output capacity of 600 megawatts, became operational again. It had been shut down since 30 January due to a fire. Eight months were required to carry out expert analysis and to repair the damaged equipment. EDF teams and outside companies worked hard to meet deadlines and carry out quality technical work, which enabled the unit to be restarted and begin providing customers with electricity.

- **First investments by Electranova Capital**

On 5 October 2012, Electranova Capital, a venture capital firm for start-ups specialised in providing “cleantech” solutions, made its first two investments: the first in the French company Actility, specialised in smart grids, and the second in the Norwegian business Seatower, specialised in foundations for offshore wind turbines that do not harm marine ecosystems. Launched in May 2012 by EDF with the support of Allianz and in partnership with Idinvest Partners, the Electranova Capital fund, with an investment capacity of at least €60 million, was established to foster innovative projects in new

technologies with a view to meeting the challenges posed by a low-carbon future. Through these initial investments, the firm hopes to become an important player in developing innovative start-ups.

- **Foundation stone laid for Dunkirk LNG terminal**

On 5 October 2012, Henri Proglio, Chairman and CEO of EDF, laid the first stone at the liquefied natural gas terminal. He was joined by Michel Delebarre, Senator and Mayor of Dunkirk and Chairman of the Dunkirk urban community. The Dunkirk LNG terminal, which is expected to be operational in late 2015, is the second largest industrial project in France, after the EPR nuclear facility in Flamanville.

- **Dome successfully fitted on Taishan 2 EPR**

On 12 September 2012, the construction of the two EPR reactors at the Taishan nuclear station in China reached a milestone. Less than one year after fitting the dome on reactor 1, the owner and future site operator, Taishan Nuclear Power Joint Venture Company (TNPJVC), which is 30%-owned by EDF and 70%-owned by its Chinese partner, the electricity company CGNPC, has successfully proceeded to fit the dome on the second reactor building.

- **Final results of EDF Group's mandatory public offer on Edison and two gas contracts**

On 6 September 2012, following the EDF Group's mandatory public offer on Edison's ordinary shares, EDF Group held 5,154,369,098 ordinary Edison shares, or 99.484% of the total share capital. Pursuant to Italian law, Edison's ordinary shares were delisted on 11 September 2012. This does not rule out the possibility of reopening capital to new shareholders in the future.

On 1 October 2012, subsequent to a legal dispute with ENI, the contractual price of natural gas supplies in Libya was revised in favour of Edison. The lawsuit was filed in 2010 and the ruling, handed down by the International Chamber of Commerce's mediation court followed an initial ruling, also in Edison's favour, on 11 September 2012 by the same court regarding LNG contracts with Rasgas. The estimated positive impact of these two settlements on the Group's 2012 EBITDA is €700 million.

- **A €2bn bond issue with a maturity of over 10 years**

On 4 September 2012, EDF (A+ S&P/Aa3 Moody's/A+ Fitch) launched a bond issue with a maturity of 10.5 years, for a total amount of €2 billion and an annual coupon of 2.75%. The annual coupon of this new issue (2.75%) should be compared with the current average annual coupon for the Group's gross debt (4.1% at 30 June 2012). With this issuance, the pro forma maturity stands at 8.7 years as of 30 June 2012 and is part of EDF's active funding policy. This bond issue attests to the Group's commitment to backing its long-term debt with long-term revenues from its businesses, following the takeover of Edison. It will, in particular, enable the Group to refinance the acquisition of Edison and its short-term debt while taking advantage of favourable market conditions."

10. 4 October 2012 - European Commission Comprehensive Risk and Safety Assessments

On 4 October 2012, the European Commission released the initial results of its risk and safety assessments of all European Union nuclear power plants. While the European Commission found that the safety standards of nuclear power plants in Europe were generally high, further improvements in the safety features of almost all European nuclear power plants were recommended by the European Commission based on the lessons learned from the Fukushima accident.

The European Commission identified several areas for improvements, including higher standards for determining earthquake and flooding risk, installation of on-site seismic instruments, installation of containment filtered venting systems, installation of equipment to fight severe accidents and construction of backup emergency control rooms.

National action plans with timetables for implementation are being prepared by national nuclear safety regulators and are expected to be available by the end of March 2013.

11. September 2012 - Fessenheim

In September 2012, within the framework of the commitment made by the President and the government to reduce the share of nuclear power in French electricity production from 75% to 50% by 2025, the French President announced the closure at the end of 2016 of the two nuclear reactors at the Fessenheim

site. This commitment was confirmed by the Nuclear Policy Council (Conseil Politique Nucleaire) on 28 September 2012, and on 12 December 2012 the Council of Ministers (Conseil des ministres) appointed an inter-ministerial delegate responsible for the plant closure.

Fessenheim 1 and 2 were the first two reactors of the 900 MW series and were commissioned in 1978. The Fessenheim 1 reactor has reached the end of the process necessary for operation for up to 40 years: at the end of the third 10-year inspection, completed in March 2010, the ASN issued a favorable recommendation dated 4 July 2011 on the ability of the reactor to be operated for an additional 10 years on the condition that certain works were carried out. The second Fessenheim reactor completed its third 10-year inspection in March 2012, the date upon which the reactor was authorized to restart.

During the construction of the Fessenheim plant, EDF concluded generation allocation contracts with respect to Fessenheim 1 and 2 with its partners EnBW and the Swiss electricity consortium, CNP. Under the terms of these contracts, in return for payment of a share of the construction and operating costs, 17.5% and 15% of the energy generated at Fessenheim was made available to EnBW and CNP, respectively.

12. 24 September 2012 - AREVA and EDF sign two major contracts for the supply of more than 30,000 tonnes of natural uranium

AREVA and EDF announced on the signature of two contracts which make a significant contribution to securing the long-term supply of natural uranium to EDF nuclear facilities.

Under the terms of these agreements, AREVA will supply more than 30,000 tonnes of natural uranium to EDF for the period from 2014 to 2035, one of the largest deliveries of uranium ever carried out by AREVA.

These contracts thus further consolidate AREVA's position as a key partner to the world's leading supplier of nuclear power, and secure EDF's natural uranium supply over the very long-term.

Luc Oursel, CEO of AREVA, declared: "these contracts are further proof of the trust which EDF, our leading customer and partner, places in our range of competitive and long-term solutions, enabling them to ensure its supplies are secure".

Henri Proglio, Chairman and CEO of EDF, stated: "these agreements are part of the implementation of the strategic partnership established with AREVA at the start of the year. They represent an essential contribution to the EDF Group's security of supply and demonstrate the unity of the French nuclear sector".

13. 12 September 2012 - China: The dome of the 2nd reactor building has been fitted successfully

Construction of the 2 EPR reactors at the Taishan nuclear power station in China reached a new stage of development on 12 September 2012. Less than one year after fitting the dome on reactor 1, the owner and future site operator, Taishan Nuclear Power Joint Venture Company (TNPJVC), which is 30 % owned by EDF and 70 % owned by its Chinese partner, the electricity company CGNPC, has successfully proceeded to fit the dome of the 2nd reactor building.

As with the installation of the dome for the first reactor unit in October 2011, these large-scale manoeuvres required the mobilisation of one of the most powerful cranes in the world. This operation marks the end of the major civil engineering works on the reactor buildings, which have involved around 2000 people for a period of two years.

With its dome fitted, the reactor building will subsequently house the heavy components of the nuclear reactor (steam generators, reactor pressure vessel, pressurizer vessel, etc). The air-tight sealing of the structure is guaranteed by the welding of the whole of the dome area, which is then covered with 7000 tons of concrete, to strengthen its resistance.

Building works for the two reactors at the Taishan plant are progressing in parallel. After the installation of the reactor vessel in June, the steam generators will be positioned in reactor 1 in the next few weeks. The success of these consecutive operations signal a new step forward in the construction of the two EPR reactors in China, for which AREVA provided the nuclear island.
